NUNC PRO TUNC ORDER

**APPROVING THE APPLICATION OF LINN OPERATING, INC, FOR
EXCEPTION TO STATEWIDE RULE 32 FOR VARIOUS GARDENDALE LEASES &
THE GARDENDALE CENTRAL TANK BATTERY SPRABERRY (TREND AREA)
FIELD, ECTOR COUNTY, TEXAS**

At conference on July 14, 2015, the Commission voted to approve the referenced dockets. Due to clerical error, the final order incorrectly listed Pioneer Natural Resources USA, Inc., in Attachment 1, however the correct operator name should have been listed as LINN Operating, Inc.. Accordingly, the July 14, 2015, Final Order is hereby amended, *nunc pro tunc*, to correct the operator name to LINN Operating, Inc, in Attachment 1 in the order. The corrected order reads as follows:

The Commission finds that after statutory notice in the above-numbered docket heard on February 11, 2015, the presiding examiners have made and filed a report and recommendation containing findings of fact and conclusions of law, for which service was not required; that the proposed application is in compliance with all statutory requirements; and that this proceeding was duly submitted to the Railroad Commission of Texas at conference held in its offices in the Austin, Texas.

The Commission, after review and due consideration of the examiners' report and recommendation, the findings of fact and conclusions of law contained therein, and any exceptions and replies thereto, hereby adopts as its own the findings of fact and conclusions of law contained therein, and incorporates said findings of fact and conclusions of law as if fully set out and separately stated herein.

Therefore, it is **ORDERED** by the Railroad Commission of Texas that LINN Operating, Inc. is hereby granted an exception to Statewide Rule 32 for the leases described in Attachment 1 herein, being located in the Spraberry (Trend Area) Field, Ector County, Texas. LINN Operating, Inc. is authorized to flare or vent up to a cumulative volume of 6,000 MCF per day of casing-head gas from the leases described in their entirety in Attachment 1. This authority is granted, provided all production is reported on the appropriate Commission forms.

The operator shall simultaneously file the Statewide Rule 32 Exception Data Sheet, and the appropriate Commission required administrative Statewide Rule 32 Exception gas flaring fee.

Done this 25th day of August, 2015.
